PROGRAM HIGHLIGHTS

Flexible
COVERAGE OPTIONS

The program offers coverage for various terms on new and used equipment so that you can choose an option that suits your needs.

Easy to use
SERVICE PROCESS

Service may be done at any IWS authorized service centre or dealer. Pre-authorized process on repairs allows clarification before the work is completed.

The servicing dealer works directly with IWS. All you are required to do is pay the deductible and any costs not covered by the warranty to the dealer.

Transferable
CONTRACT

The plan is transferable to a new owner. This increases the value of the unit at the time of sale.

(A transfer fee applies)
